Reviewer's Report of

Jacob Eshman

Ditch.

TO THE HONORABLE BOARD OF COMMISSIONERS OF

Hamilton

COUNTY, INDIANA:

We, the undersigned, appointed by this Court, at its ... Term, 18 ... to view a drain described in the certified copy of a petition and order of Court for a ... Ditch, by Eshman Et al and others. ... 10" day of Nov ... 18 ... in company with J.F. Nottingham, a civil engineer, made an accurate survey of the line of said proposed Ditch from its source to its outlet. A plat of said is filed herewith including the survey by the engineer, marked "Exhibit A." We caused stakes to be set along said line, each one hundred feet, numbering down stream, as shown by plat. We also made a computation of the total number of cubic yards of earth to be removed from said drain, and estimated the total cost for the construction of the work at \$428.00 Dollars. We also apportioned and set apart to each parcel of land a share of said work in proportion to the benefits received, all of which will fully appear by a tabular statement in this report. We have also set out by a statement below, the names of the owners of lands benefited with a description of each tract of land, and the amount assessed against each tract. The depth of cut, the width at bottom, and width at top along said drain is also shown in a tabular statement in this report. After a full and careful view and examination, we are of the opinion that the drain as located by the survey will be of Public Utility.

And the cost of constructing the proposed drain will not exceed the benefits to be derived therefrom. And that the proposed drainage can be best accomplished by a tile ditch constructed as follows: (See page 3.)

The following statement shows who are benefited, the lands thereof and assessment thereon, location, length of each share, amount of assessments, amount of benefits, amount of dirt to be removed from each share, price thereof per cubic yard, and total cost of each share:

Table with columns: NAMES OF OWNERS, DESCRIPTION OF LANDS, Section, Township, Range, Acres Assessed, H of lbs Assessed, Acres Benefited, H of lbs Benefited, Amount of Benefits, Amount of Assessments, From Station, To Station, Feet Long, Cubic Yards to be Removed, Price per Cubic Yard, Cost of Construction of Share. Rows include Jno Tomlinson, I Harris, Jacob Eshman, F Neutzaholzer, I Phenix, A Kauffman, and White River highway.
