Re: Geist Woods

On August 10, 1983 R & P Enterprises submitted a petition for Geist Woods Sections 1 and 2. Because of certain problems this petition was held until the problems were corrected. Since that time a petition for Sections 3 and 4 has been submitted. Upon review I now believe that all required submissions are filed and needed revisions made. I have made an onsite inspection of the proposed drain an believe it to be practicable, will improve the public health, be of public utility and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accuring to the owners of land likely to be benefited.

Attached are construction plans, calculations, engineers estimate, assessment roll, performance bond, non-enforcement and petition for the drain. The portion of the drainage which will become regulated drains is shown in red on the development plan. The quantity list for the project is as follows:

Open swale/ravine	1480'
3 double inlets	
5 single inlets	
12" CMP	210'
15" CMP	55'
42" CMP (50"x31" CMPA)	95'

2 - 15" End Sections
4 - 27" End Sections
2 - 36"x22" End Sections
2 - 50"x31" End Sections
7 - 18" End Sections

The length of the drain is 2223 feet.

The maintenance assessment has been figured at $20.00 per lot and $2.00 per acre. The yearly cost for the maintenance will be $1,573.60.

I recommend that a hearing be held for this drain on March 12, 1984.

SECRETARY

TO: Hamilton County Drainage Board

RE: Geist Woods Drain

I have inspected the drainage facilities for the Geist Woods Drain and have found then to be complete and acceptable. The Project Engineer has submitted the Certificate of Completion and Compliance and "As Built" Drawings on reproducable mylar of the drainage system.

During construction two (2) changes were made. These changes were approved by me on Novemeber 8, 1987 and regraded pipes within the open ditch on Lots 24 and 25. These changes are shown on the "As Built" Drawings. The length of the drain did not change from that stated in my original report dated February 16, 1984. The length is 2223 feet.

Two items should be clarified at this time. The open swale comming from Carefree Estates to the East and running acroos Lots 16,17,18 and 19 along with the 12" CMP on Lot 17 (Denoted as STR 8) are not part of the regulated drain. This system shall remain private.

The pipes under Fall Creek Road and the swale in the rear of Lots 55 and 56 along the road were not part of the regulated drain system. These shall remain as the maintenance responsibility of the County Highway Department at this time. These may be part of the Drain at a later date if petitioned.

At this time I recommend the Board approve the drainage facilities as constructed. The non-enforcement request for this plat was approved by the Board at its meeting on March 12, 1984. (see minutes Book 1, Page 579).
