TO: Hamilton County Drainage Board

RE: Laurel Lakes Drain-Section 1 Arm

Attached is a petition, non-enforcement request, plans, calculations, quantity summary and assessment roll for the Section 1 Arm Laurel Lakes Drain. I have reviewed the submittals and petition and have found each to be in proper form.

I have made a personal inspection of the land described in the petition. Upon doing so, I believe that the drain is practicable; will improve the public health; benefit a public highway and be of public utility' and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accruing to the owners of land likely to be benefited. The drain will consist of the following:

6"	SSD	8990ft	21"	RCP	220ft
12"	RCP	126ft	36"	RCP	1911ft
15"	RCP	791ft	42"	RCP	1590ft
18"	RCP	1699ft			0

The total length of the drain will be 15,335 feet.

The above lengths include the offsite storm line to the J. W. Brendell Drain.

The retention pond (lake) located in Block A is not to be considered part of the regulated drain. Only the inlet and outlet will be maintained as part of the regulated drain. The maintenance of the pond (lake) will be the responsibility of the Homeowners Association. The Board will however, retain jurisdiction for ensuring the storage volume for which the lake was designed will be retained. Thereby, allowing no fill or easement encroachments.

This copy printed from the Digital Archive of the Hamilton County Surveyor's Office; One Hamilton Co. Square, Ste. 188, Noblesville, In 46060

The subsurface drains (SSD) to be part of the regulated drain are those located under the curbs and those main lines between lots or in rear yards. Only the main SSD lines which are located within the easement/right of way are to be maintained as regulated drain. Laterals for individual lots will not be considered part of the regulated drain. The portion of the SSD which will be regulated drain other than those under curbs are as follows: Rear Lots 11-15, between Lots 1 & 2, Rear Lot 1, across Block B and within the West R/W for Towne Road , and across Block C and within the West R/W for Towne Road

I have reviewed the plans and believe the drain will benefit each lot equally. Therefore, I recommend each lot be assessed equally. I also believe that no damages will result to landowners by the construction of this drain. I recommend a maintenance assessment of $35.00 per lot, $5.00 per acre for roadways, with a $35.00 minimum. With this assessment the total annual assessment for this drain/this section will be $ 1424.86

Part of Block B may be assessed for the Williams Creek Drain or one of its tributaries at sometime in the future. Parcels assessed for this drain will also be assessed for the J. W. Brendell Drain.

I believe this proposed drain meets the requirements for Urban Drain Classification as set out in IC 36-9-27-67 to 69. Therefore, this drain shall be designated as an Urban Drain .

I recommend that upon approval of the above proposed drain that the Board also approve the attached non-enforcement request. This request is for the reduction of the regulated drain easement to those easement widths as shown on the secondary plat for Laurel Lakes Section as recorded in the office of the Hamilton County Recorder.

I recommend the Board set a hearing for this proposed drain for ~~April~~ March 1995.

RE: Laurel Lakes Drain-Section 1

Attached are as-builts, certificate of completion and compliance, and other information for **Laurel Lakes Section 1** An inspection of the drainage facilities for this section has been made and the facilities were found to be complete and acceptable.

During construction, changes were made to the drain which will alter the plans submitted with my report for this drain dated **February 9, 1995.** The changes are as follows:

STR 35 to 36 consists of 42" RCP which was shortened from 189 feet to 167 feet.
STR 36 to 37 consists of 42" RCP which was lengthened from 59 feet to 61 feet.

The length of the drain due to the changes described above is now **15,315 feet.**

The non-enforcement request was approved by the Board at its meeting on **March 27, 1995.**

The Bond or Letter of Credit from First Federal Savings Bank, Numbers #1088-1090 ,# 1088-1095, dated October 27, 1995, in the amounts of $271,038.00 and $2000.00, $25,434.00 have been released.

I recommend the Board approve the drains construction as complete and acceptable.
