TO: Hamilton County Drainage Board

RE: Richard Moffitt Drain-
Lexington Farms, Section 5 Arm

Attached is a petition, non-enforcement request, plans, calculations, quanity summary and assessment roll for the Lexington Farms, Section 5 Arm of the Richard Moffitt Drain.

I have reviewed the submittals and petition and have found each to be in proper form.

I have made a personal inspection of the land described in the petition. Upon doing so, I believe that the drain is practicable; will improve the public health; benefit a public highway and be of public utility; and that the costs, damages and expenses of the proposed drain will probably be less than the benefits accuring to the owners of land likely to be benefitted. The drain will consist of the following:

6" SSD 370ft 12" RCP 267ft 15" RCP 281ft 18" RCP 150ft

The total length of the drain will be 1068 feet.

Only the main subsurface drain (SSD) will be maintained as part of the regulated drain. The branches for each individual lot will not be maintained as part of the drain.

The retention area shown on the attached plan (lake 7) will not be maintained as part of the regulated drain. These are to be maintained by the Homeowners Association with only the inlets and outlet maintained as part of the regulated drain.

This copy printed from the Digital Archive of the Hamilton County Surveyor's Office; One Hamilton Co. Square, Ste. 188, Noblesville, In 46060

I have reviewed the plans and believe the drain will benefit each lot equally. Therefore, I recommend each lot be assessed equally. I recommend a maintenance assessment of $30.00 per lot, $5.00 per acre for roadways, with a $30.00 minimum. With this assessment the total annual assessment for the drain/this section will be $870.00.

I recommend a hearing be set for December 1989. I also recommend that if approved at hearing, the Board should approve the attached non-enfrocement request.

RE: Richard Moffitt Drain-Lexington Farms Section 5 Arm

Attached are as-builts, certificates of completion and Compliance and other information for Lexington Farms Section 5 Arm. An inspection of the drainage facilities for this section has been made and the facilities were found to be complete and acceptable.

During construction of the drain there were not any significant changes made to the plans submitted with my report date November 7, 1987. Therefore, the length of the drain remains at 1,068 feet. The non-enforcement of easement was approved by the Board at it's meeting on January 16, 1990.

The bond or letter of credit from Bank One, number S-3571-G dated January 16, 1990, in the amount of $89,103.00 has been released.

I recommend the Board approve the drains construction as complete and acceptable.
